Water (Tank and Lines)

Preparation

- Clean the fresh water tank with a dish brush and rinse it out
- Unscrew the sieves from all taps
- Insert the drain plug in the tank
- Close the boiler (ensure it is switched off!)

Cleaning Process

- Fill in water tank cleaner and top up with water
- Run every tap briefly (warm & cold) to distribute the cleaner
- Observe soaking time (recommended: approx. 24 hours)

Rinsing

- Drain tank and boiler completely
- Fill up with fresh water and rinse all taps for 2-3 min. (warm & cold)
- Repeat the rinsing process once
- Screw the sieves back onto the taps
- (Optional) Place a new silver net in the tank

Interior Cleaning

- Floor: Wipe or vacuum corners that are otherwise hard to reach
- Carpet: Check for stains and clean if necessary
- Mirrors: Clean all mirrors with window cleaner
- Surfaces: Dust and wipe with a damp cloth
- Interior Check: Check for damage or defects

Packing & Preparing

- Put on fresh bed linen
- Place cushions and decorations
- Top up bathroom utensils
- Stock up on basic food (e.g., spices, pasta, canned food)
- (Optional) Replace batteries in fairy lights/devices

Have a safe trip and a great camping season!
